

Four Focus Areas

- **Why is RMTG working in the nation of Uganda?**
- **Systemic Issues**
- **Systemic Change**
- **Leveraging healthcare for development**

Why is RMTG working in the nation of Uganda?

- **What RMTG does:**
 - **Software – Infrastructure – Education – Org. Dev.**
- **Steps to Uganda**
- **Work in Uganda**
- **Key elements:**
 - **Four Principles**
 - **Partnership Approach**
 - **Motivation**

Systemic Issues

- **Stove pipe funding = stove pipe implementation = increased costs = slower development**
- **Technology – In Depth Capacity != Development**
- **Business as Supplier vs. Business as Partner**

Systemic Change

- **Integrated technology requires integrated approach**
- **Business must step up**
- **Business must be accepted as a development partner**
- **Processes are needed**
- **Business must be true to development ethic**
- **Capacity building must be the responsibility of all key participants**

Leveraging Healthcare for Development

- **We are going to spend the money anyway why not leverage it?**
- **National system = national training = national exposure = national capacity**
- **Healthy people needed for healthy workforce, needed for successful business growth**
- **IT necessary for participation in global economy...when will it be less expensive?**
